Select Series Jazz Bass Upgrade Doubles Your Pickup Tones

Detroit, Michigan, July 24, 2012

Just released – A new upgrade for all *right-hand* or *left-hand* 2-pickup Select Series Jazz Bass instruments that contains **AweSome Musical Instruments Pickup Switch Upgrade™** product. This drop-in product instantly gives you 100 percent *more pickup tones* on your instrument to let you find your *elusive* **Signature Sound**.

This upgrade is a completely wired black acrylic Jazz Bass Control Plate with a stacked volume/tone control and includes their T2-Switch. This upgrade is for a standard Select Series Jazz Bass (or equivalent) body. You just connect your pickup wires to the terminal strip and “drop it in” with no soldering needed.

Installing this product elevates your Select Series Jazz Bass to an entirely new level to let you emulate a huge number of well-known, famous bass sounds. It also reduces the need to change instruments for a particular sound or style. By Swapping pickups, you can change the tone “palette” and hone in on your unique sound.

AweSome Musical Instruments is company based in the Detroit, MI suburb. They have a growing family of *revolutionary* patented **Pickup Switch Upgrade™** products. These products are proudly made in the U.S.A. and are designed to give you more Pure Analog pickup tones than anything.

“We are known for creating several dozen of the best pickup tones in the world. You could be known for using them.”
